LB 267

SENATOR NEWELL: Senator Lamb, if you feel that this is...and I would accept an amendment. I have no fear that an amendment to this would do that. If you would like to put on an amendment to make it very clear that they report back and go out of business, I think that is implied. I think that is understood but that kind of clarification will not hurt a bit and I would support it.

SENATOR LAMB: You would support it. Thank you. Would you put the amendment up there or I will do it?

SENATOR NEWELL: Well, I can do it. We will talk together afterwards and decide which one of us will do it.

SPEAKER MARVEL PRESIDING

SPEAKER MARVEL: Senator Keyes, do you wish to be recognized on the motion?

SENATOR KEYES: The motion is to advance the bill. Isn't it?

SPEAKER MARVEL: Yes.

SENATOR KEYES: No, I think the people know what it is going to do and I think that if it goes through the Office of Planning and Programming and you folks have your way, I think it will die.

SPEAKER MARVEL: Senator Nichol, do you wish to be recognized?

SENATOR NICHOL: Mr. Chairman, members of the Legislature, here we have another entity of government coming into being and, Senator Fitzgerald, you are Chairman of the Nebraska Transportation and Advisory Commission, were you counselled on this bill? Your microphone isn't on, Senator Fitzgerald. I asked Senator Fitzgerald a question. Senator Fitzgerald, were you ever counselled on this bill?

SENATOR FITZGERALD: From who?

SENATOR NICHOL: From anybody.

SENATOR FITZGERALD: No.

SENATOR NICHOL: Do you contemplate that we need another Transportation Commission?
